Licensor shall promptly activate and/or deactivate IP-addresses accordingly. Licensor reserves the right to confirm accuracy of the IP-Address(es) supplied before grant of access. Notwithstanding anything to the contrary in this License Agreement, notifications of IP-Address changes may be made in electronic format.

The National Library of Finland represents that it is currently not the subject or target of any sanctions imposed by sanctions authorities in the United States, the United Nations Security Council, the European Union, member states of the European Union or the United Kingdom ("Applicable Sanctions") and to its knowledge, after reasonable inquiry, neither is any Licensee. Licensor may unilaterally terminate this License Agreement, either in whole or with respect to a particular Licensee, with immediate effect on written notice if Licensor has reasonable grounds to believe that either (i) the National Library of Finland is in breach of that representation or (ii) Licensor may violate applicable sanctions by the provision of access to Content under the License Agreement due to a change in law or an entity or person being on a sanctions black list.

Licensor represents that Licensor is currently not the subject or target of any Applicable Sanctions. the National Library of Finland and/or Licensee may unilaterally terminate this License Agreement, with immediate effect on written notice if Licensee has reasonable grounds to believe that either (i) Licensor is in breach of that representation or (ii) Licensee may violate applicable sanctions by paying the License Fees under the License Agreement due to a change in law or an entity or person being on a sanctions black list.

If such termination is exercised during the Term, at the National Library of Finland's request Licensor will refund the National Library of Finland the License Fee in response to Licensor's termination of Licensee(s) access under this sanctions clause if, in Licensor's sole determination, the refund is permitted under applicable restrictions and there are no restrictions to actually conduct such refund by means generally used by Licensor. If subject to the preceding sentence, Licensor is able to reimburse the National Library of Finland, such refund will be calculated on a pro-rata basis based on the License Fees paid for any Product in advance, based on the number of full calendar months remaining in the Term for such Product. If at the time of termination the License Fees for the applicable year had not yet been paid, the License Fees will be prorated and the License Fees for the period when access was granted and/or Publishing Services were provided will be invoiced and paid in accordance with this License Agreement; if such invoicing is permitted under applicable restrictions and there are no restrictions to actually conduct invoicing. If

there are restrictions in place regarding refunding or invoicing, the refunding or invoicing will take place without delay once the restrictions have been lifted.

Product Terms

Springer Transformative Agreement

WHEREAS, the Licensors, and the Licensees intend to establish a legal and economic framework to allow: (a) Eligible Authors to publish open access articles in the Springer Hybrid journals listed in Schedule 1 (Springer Hybrid Journals), whereby article processing charges would be already considered as a part of the overall fees under these Product Terms; and (b) access to the journals listed in Schedule 2 of Part B (Content). Licensors will provide (i) the Publishing Services to each Licensee for the benefit of Eligible Authors of the Licensees and (ii) access to the Content by the Authorized Users of Licensees. The National Library of Finland is paying the Fees on behalf of the Licensees in consideration of Licensors' provision of such Publishing Services to the Licensee for the benefit of Eligible Authors of the Licensees and access to the Content by Authorized Users of Licensees.

These Product Terms incorporate the following Schedules:

- Schedule 1 Springer Hybrid Journals
- Schedule 2 Continuing Access Journals
- Schedule 3 APC Rates

Term of these Product Terms (applicable to Part A and B):

The Term shall begin on 1st January 2026 (the "Commencement Date") and shall end on 31st December 2027 unless terminated earlier in accordance with this License Agreement. Licensee shall have the option to renew the Term for additional one-year term, for the calendar year 2028 indicated in Section 1 above, for the License Fees indicated with respect to year 2028. Such option is subject to the condition that Licensors receive written notification of Licensee's exercise of its option for the renewal term no later than 60 days prior to the end of the current year of the Term. For avoidance of doubt, use of the option year requires participation by all Licensees.

PART A – OPEN ACCESS PUBLISHING

1. Definitions

- 1.1 The following terms shall have the following meanings when used within these Product Terms, and shall apply in addition to the definitions included in Section 1 of the General Terms and Conditions:
- 1.1.1 **"APC Fund"** means the fund from which Eligible Authors can publish Eligible Articles and corresponds to the Publishing Fee as specified in the License Fee section of this Agreement;
 - 1.1.2 **"Article Approval Process"** means the Publisher's standard approval portal for journals;
 - 1.1.3 **"Article Processing Charge"** means the Publisher's article processing charge for publishing an open access article in the applicable journal, as specified in Schedule 3 (APC Rates);
 - 1.1.4 **"Eligible Authors"** means authors who (i) are **"Affiliated"** with a Licensee as Authorized Users excluding Walk-in-Users, whereby in case of articles published by multiple authors, only the corresponding author may qualify as an Affiliated Author, (ii) have signed one of the then current open access publishing agreements used at the Licensors to publish an article in one of the Licensors' Journals under an Open Access License, and (iii) for which a Licensee has confirmed the status as Affiliated Author. For clarity, an author is an Eligible Author also if they were an Authorized User at the time of submission of article, at editorial article acceptance or at "requested date" provided that the author is identified as an Affiliated Author.

For the avoidance of doubt, it is the sole responsibility of the Licensee to verify if an author is an Affiliated Author. If the Licensee confirmed the affiliation of an author with respect to an article, this author shall be deemed an Affiliated Author.

1.1.5 **“Eligible Articles”** means articles (i) which are original and not infringe on any law and/or third party right and meet all ethical standards as required in the current guidelines of the Commission for Publication Ethics (COPE) and other policies of the Licensor, (ii) which are written by Eligible Authors, (iii) which are editorially accepted by the Licensor for publication in a Journal, with an acceptance date not later than 31.12.2025 and (iv) which are in one of the following article types:

- a) Original Paper – Standard article, generally presenting new results which may also be referred to as Original Research, Original Article, Original Paper or Research Paper.
- b) Review Paper – Standard article, interpreting previously published results.
- c) Brief Communication – Short article submitted for rapid publication that exhibits the same structure as a standard article.
- d) Continuing Education – Article forming integral part of further education (usually medical).

The Parties may agree in writing to add other article types to the definition of “Eligible Articles”.

1.1.6 **“Non-Standard Journals”** means the journals which are not published in Licensor’s standard publications workflow, and/or in which respect Licensor does not control the publication workflow and/or the terms and conditions under which such journals are published. Non-Standard Journals are marked accordingly in the list of Springer Hybrid Journals, but Licensor may change the designation of journals from Non-Standard to standard from time to time during the Term.

1.1.7 **“Open Access License”** means a Creative Commons license, used for the publishing of Eligible Articles in Springer Hybrid Journals. The Licensor currently offers CC BY 4.0 and CC BY-NC 4.0, but this is subject to change to newer versions of the said license at any time by the Licensor. CC BY-NC is currently offered by the selected journals defined in Schedule 1. It is understood that journals may during the Term offer other open access license options. If more than 2% of the Springer Hybrid Journals choose to change the license from the currently offered license specified in this clause, the Licensor shall promptly inform the Licensee through the National Library of Finland, and the Licensee shall have the right to terminate the License Agreement by written notice to Licensor in accordance with Section 7.2 of the General Terms and Conditions within 30 days upon the date of notification, such termination being effective with the beginning of the month of the Term following receipt of termination notice. For avoidance of doubt this clause does not prevent the Licensor from implementing CC0-license for data.

For Clarity: If an Affiliated Author wishes to publish its article under another open access license than the agreed CC BY 4.0 as specified per title in Schedule 1 (also allowing newer versions of that license) those articles shall not be subject to these Open Access Publishing Product Terms. In case the Article Processing Charge for any such article is deducted from the APC Fund, Licensor will correct the APC Fund of Licensee promptly upon knowledge.

1.1.8 **“Springer Hybrid Journals”** means the Adis, Birkhäuser, co-published with Springer, Discover, J.B. Metzler, Springer Spektrum, Springer Vieweg, Springer Medizin, Hebrew University Magnes Press, Serdi-Edition, Palgrave Macmillan, Springer, Springer Gabler, Springer Nature (including hybrid Academic Journals on nature.com) and Springer VS journals, identified as Springer Hybrid Journals in Schedule 1. available for publication under these Product Terms. A current list is attached in Schedule

1. Such new, start-up journals initiated by Licensor and first published during Term (“New Starts”) which Licensor, at its choice, qualifies as Journals will automatically be available to Eligible Authors. The list of Springer Hybrid Journals will be updated on an annual basis (including New Starts) at the latest 30 days prior to the end of the calendar year. If the total number of Springer Hybrid Journal titles is reduced by 5% or more compared to the title list of the respective previous year of the Term, Licensee and Licensor may mutually agree to a reasonably re-negotiated APC Fund for the following calendar year(s) of the Term, by written agreement until the 15th of December the latest. If an agreement cannot be reached, Licensee shall be entitled to terminate this License Agreement, with the written termination notice received by Licensor on December 20th the latest, the termination being effective at the beginning of the subsequent year of the Term. Additionally if the number of Springer Hybrid Journal titles in a main discipline with more than fifty (50) titles (according to Schedule 1) is reduced by more than 30% compared to the title list of the previous year, only such Licensee(s) whose publishing activity in such main discipline represents more than 30% of its overall Eligible Articles within the respective year, Licensee and Licensor may mutually agree to a reasonably re-negotiated APC Fund for the following calendar year(s) of the Term, by written agreement until the 15th of December the latest. If an agreement cannot be reached, Licensee shall be entitled to terminate this License Agreement, with the written termination notice received by Licensor on December 20th the latest, the termination being effective at the beginning of the subsequent year of the Term.

1.1.9 If, during the Term, Licensor decides to change the business model of a Springer Hybrid Journal to solely offering open access publication, such journal will nevertheless remain a Springer Hybrid Journal for the purposes of this License Agreement.

1.1.10 **“Publishing Services”** means Licensor’s services covered by the standard list price article processing charge at the relevant Springer Hybrid Journal procured by Licensee for the publication of an Eligible Article. Publishing Services include a) pre-publishing services, which may include managing the publishing process, the provision of online tools for editors and authors, article review, copy-editing, typesetting and formatting, production and hosting, liaising with abstracting and indexing services, and customer services, as per the applicable workflows at the relevant journal, and identification and verification workflow of Eligible Authors, and b) (subject to the Eligible Author agreeing to the journal publisher’s publishing terms, and subject to these Product Terms), procuring the publication of the Eligible Article in a Springer Hybrid Journal.

2. Open Access Publishing

Publication of Eligible Articles

2.1.1 Eligible Authors will retain copyright in the Eligible Article, subject to the following exceptions: including, but not limited to, articles published in Non-Standard Journals, or if requested by the author, and/or otherwise required by mandatory law or third parties (such as funding bodies or author’s employer). For avoidance of doubt, Affiliates of Licensor or owners of the Springer Hybrid Journals are not considered a third party under this Section.

2.1.2 With the start of the Term, Licensor will start the identification process of Eligible Authors according to these Product Terms. For the avoidance of doubt: Eligible Articles may therefore include articles with a date of editorial acceptance prior to the start of the Term. Any Article Processing Charge for an Eligible Article submitted by an Eligible Author shall be deducted by the Licensor from the APC Fund upon the date when the Licensee has confirmed the status of the author as an Affiliated Author and Licensor shall then publish such Eligible Article on its Platform under the applicable Open Access License. The APC for any article submitted to the Licensor from an Affiliated Author, which is not an Eligible Article, will not be deducted

from the APC Fund and will be charged separately under the Licensor's standard process; alternatively, such author may choose to submit its article for publication on a subscription basis. Licensor will refund any remaining APC Fund to the Licensee via the National Library at the end of the Term, such being calculated by multiplying the remaining Eligible Articles with the Agreed APC Rate of the calendar year of the Term from which such articles originate. The Licensee operates a '**compulsory Open Access policy**' whereby all Eligible Authors shall be required to publish Eligible Articles under an Open Access License. If an Eligible Author wishes to publish an Eligible Article on a subscription basis, and the Eligible Author contacts the Licensee on this point, the Licensee shall reject the Eligible Author at the authorization stage under Section 2.2.4.

- 2.1.3 Eligible Articles will be published under the Open Access License at Publisher's Platform. Licensor shall use its best efforts to provide online access to the Eligible Articles published under the Open Access License at Publisher's Platform at all times and on a twenty-four-hour basis, subject to periodic unavailability due to (a) unexpected technical issues outside of Licensor's control, and (b) server and software maintenance. Licensor further agrees to restore access as promptly as possible using best efforts in the event of an interruption or suspension of service. All of Licensor's obligations under this Section are subject to (i) Licensee's timely payment of the Publishing Fees. Licensee acknowledges that access requires full compliance with Licensor's reasonable instructions regarding access to the Eligible Articles, whereby reasonable instructions in the aforementioned way shall mean measures in accordance with the then current standard of technology. Licensor must receive notification of a loss of access or interruption, specifying the circumstances in reasonable detail. Further, Licensor shall have no obligation under this Section for any unavailability caused in whole or in part by a Licensee or its Authorized Users or any third party.
- 2.1.4 The number of Eligible Articles as set forth in the monthly reports as per Section 2.1.5 will be determined by the date on which the relevant Article Processing Charge was deducted from the APC Fund.
- 2.1.5 The Licensor will report to the National Library of Finland acting on behalf of the Licensees, on a monthly basis how many Eligible Articles have been accepted and approved by Licensee and, if applicable, the Licensor will also report any articles in which regard the Licensee has rejected the status of the author as an Affiliated Author pursuant to these Product Terms. The report shall contain the following information regarding the Eligible Articles: a) Name and email address of the Eligible Author b) Name of the Licensee c) Funding organisation (research funder) if provided by author d) Date of acceptance of Eligible Article (provided that the policy of the Springer Hybrid Journal is to display the date of acceptance of the published article) e) Date of publication if applicable f) Springer Hybrid Journal title g) ISSN h) Eligible Article title i) Eligible Article type j) DOI k) Open Access License l) list APC and contracted Article Processing Charge m) approval date n) allocation month.

In addition, the National Library of Finland and Licensee can access and download reports via the Article Approval Process. The reports contain the following information: membership institute (Licensee), article title, DOI, article type, journal title, ISSN /eISSN license type, subject, submission date, acceptance date, approval/rejection date, approval requested date, approver, online first publication date, online issue publication date, contracted APC, corresponding author name, contributing authors, funder information.

Licensor will report to the National Library of Finland acting on behalf of the Licensees, on a quarterly basis the number of articles by Affiliated Authors published non-open access in Springer Hybrid Journals listed in Schedule 1. The report shall contain the following information regarding these articles published non-open access: a) Name and email address of the Corresponding Author b) Name of the Licensee c) Springer Hybrid Journal title d) ISSN e) Article title f) DOI.

- 2.1.6 The Licensor shall notify the National Library of Finland when the APC Fund is due to run out. The Licensor shall endeavor to submit such notification 6 weeks before the APC Fund runs out.
- 2.1.7 In case the APC Fund is not sufficient to cover any more Article Processing Charges, the Licensor will stop accepting Eligible Articles for open access publication pursuant to these Product Terms. Under such circumstances, the Licensor will notify the National Library of Finland and the relevant Licensee and either:
- 2.1.7.1 the National Library of Finland or the relevant Licensee may, at its sole discretion, decide to pay the APC for any relevant Eligible Article within 14 calendar days of receipt of the notice; or
 - 2.1.7.2 where the National Library of Finland or relevant Licensee has not notified the Licensor according to Section 2.1.7.1., and an Eligible Author approaches the Licensor with the desire to publish an article, and pay the APC by himself/herself or by a third party, the Licensor reserves the right to publish such article; or
 - 2.1.7.3 if Sections 2.1.7.1.) or 2.1.7.2. do not apply, the Eligible Article may be published on a subscription basis.
- 2.1.8 The Licensor undertakes to use reasonable efforts to use ORCID (<http://orcid.org/>) throughout the workflow from submission to publication and expose Eligible Author's ORCID ID in Eligible Articles and via Abstracting & Indexing (A&I) services, CrossRef and other discovery services. It is the Eligible Author's responsibility to provide all necessary details in respect of its ORCID ID to the Licensor.
- 2.1.9 Except for the last year of the Term, Licensor will calculate the annual average published list price APC for Eligible Articles for the respective year of the Term upon its expiry. If the annual average list price APC for Eligible Articles during the respective year of the Term is less than the agreed APC Rate (as specified in Schedule 3) for such year, the lower annual average list price APC shall be applied to all Eligible Articles of the respective year. During the last year of the Term Licensor shall calculate the annual average published list price APC for Eligible Articles at the same time as it informs the National Library of Finland according to Section 2.1.6 above about possible run-out of the APC Fund. If the average list price APC for Eligible Articles during the respective time-period is less than the agreed APC Rate (as specified in Schedule 3), the lower average list price APC shall be applied to all Eligible Articles of the respective time period.
- Licensor shall credit any overpayment resulting from a lower average list price than the agreed APC Rate for the respective period back to the APC Fund and the total remaining APC Fund can then be used up to the end of the Term of the License Agreement.
- 2.1.10 If the National Library of Finland defaults with respect to payment of the Fees in accordance with these Product Terms and the Agreement, Licensor may, pursuant to Section 7.4 (a) of the General Terms and Conditions, with respect to any articles not yet published, cease (i) the author identification process, (ii) submission to the Licensee of articles of Affiliated Authors for approval according to Section 2.2.4. and (iii) publication of any Eligible Article (excluding Eligible Articles covered by previously paid Publishing Fees under this License Agreement under these Product Terms). Licensor, however, shall be free to offer to enter into separate agreements with Affiliate Authors affected by such default for publishing services subject to payment of any applicable article processing charge by the relevant Affiliated Author(s). For clarity, within ten business days after the National Library of Finland cures its payment default, Licensor shall recommence the activities set forth in subparagraphs (i) – (iii) above, however Licensor shall not be obliged to recommence the activities for any articles processed between cessation of activities and recommencing the activities.

2.2 Editorial Independence

- 2.2.1 Nothing herein contained shall oblige the Licensors or any third party to accept or publish any article submitted to the Licensors by an Eligible Author. The Licensees acknowledge that the selection of material to be accepted and published by the Licensors or a third party in control of the publishing process is entirely at the discretion of the Licensors or said third party. The Licensees waive any claim they may have against the Licensors or said third party in the event that the Licensors or said third party refuses or declines to publish any material (or part thereof) submitted by an Eligible Author.
- 2.2.2 Process for identification of Affiliated Authors:
- a) It is the Licensee's responsibility to provide the parameters (currently Licensee's IP-ranges, email domains and Licensee's names) for identification of Affiliated Authors and shall update the Licensors of any changes in those parameters (currently changes in IP-ranges and email domains and Licensee's names) as soon as reasonably practicable.
 - b) Affiliated Authors shall identify themselves as follows:
 - c) With respect to publication in any Springer Hybrid Journal by selecting either their institution's name or using their e-mail domain or by IP address recognition within the identification process.
 - d) Each Non-Standard Journal may have a different process (such as for example institution's name, e-mail domain) for identification of Affiliated Authors. The Licensors will inform Licensee of the identification method used by Non-Standard Journals and the Licensee shall instruct its Authorized Users accordingly. Currently Authorized Users should be instructed to use their institutional email domain and the Licensee's name in communications with Non-Standard Journals in order to be identified accurately.
- 2.2.3 If an Affiliated Author does not identify themselves in accordance with section 2.2.2. and then publishes such article on a subscription basis or pays the APC themselves, the Licensors shall not be required to then convert the article so that it is released pursuant to an Open Access License, and shall not be required to refund the APC paid by the Affiliated Author.
- 2.2.4 The Licensors shall notify the Licensee by email each time an author is identified as an Affiliated Author. The respective Licensee shall confirm or deny that the author is "an Affiliated Author pursuant to Section 1.1.4, within 3 business days following such notification, and in the case of confirmation, shall be deemed to have confirmed the Publishing Services for the respective Eligible Article. In case Licensors does not receive either a confirmation or a denial within 3 business days after Licensors has notified the respective Licensee, Licensors will send a reminder, with a 4-day grace period, which shall inform the respective Licensee that Licensors will deem the author to be an Affiliated Author and continue the publishing process, and deduct the for such article from the APC Fund pursuant to these Product Terms, if the set grace period expires without any declaration by the respective Licensee.
- 2.2.5 During the Term, if the Licensors fails to identify authors as Affiliated Authors despite correctly provided parameters as specified in Section 2.2.2 (as applicable), the Licensors shall be responsible for rectifying the status of the article, subject to the following process:
- a) The National Library of Finland shall notify the Licensors no later than 6 months following the date of first online publication of the relevant article that it believes that the parameters have not been correctly applied.
 - b) The Licensors shall promptly upon such notification investigate and confirm to the National Library of Finland whether the parameters have been applied correctly, or incorrectly.

- c) In the event the parameters have been applied incorrectly, the article shall constitute an Eligible Article for the purposes of this Agreement. Accordingly, the Licensor shall request the Eligible Author's written consent to publish the Eligible Article under an Open Access Licence. Upon receipt of the signed open access publishing agreement from the Eligible Author, the Eligible Article shall be subject to a correction which specifies that the Eligible Article is published under an Open Access License going forward.
 - d) The Licensor shall issue the correction described in c) above within 30 days from receipt of the signed open access publishing agreement. The National Library of Finland agrees and acknowledges that any delay by an Eligible Author in signing an open access publishing agreement, or in consenting to the draft language of the correction, shall result in a delay in rectifying the Article's status.
 - e) Upon issuing the correction and rectifying the status of the Eligible Article, the Article Processing Charge for the Eligible Article shall be deducted from the APC Fund in accordance with the terms of this Agreement.
- 2.2.6 The parties may mutually agree in writing to a different, more automated mechanism to verify identification criteria for Eligible Authors.
- 2.2.7 From time to time, the Licensor shall be entitled to revise the identification and verification process described above in order to improve the process for Eligible Authors and Licensees. The Licensor shall notify the National Library of Finland in writing at least 8 weeks in advance of any such changes to the process.
- 2.2.8 All communications specified in Sections 2.2.2 and 2.2.4 above shall be managed through the Article Approval Process, however Parties agree that in exceptional cases communication may also be made via other means (such as e-mail communication).

- 2.1 The Content as listed in Schedule 2 may be updated on an annual basis. Such updated title list will include New Starts. If the total number of journal titles is reduced by 5% or more compared to the title list of the respective previous year of Term, Licensor will notify Licensee of such reduction at the latest 30 days prior to the end of the calendar year. Licensor will make a pro rata reduction of part of the Reading Fee for the subsequent for the affected year(s) of the Term, taking into account the amount of material withdrawn and the remaining unexpired portion of the Term. In circumstances in which it is not possible for the Licensor to give the Licensee such advance notice, for example because the material to be withdrawn poses a legal risk or a risk to health or life, the Licensor will give as much notice as it can of such withdrawal.

In case of (c) above, use of the Content shall be subject to the terms of this License Agreement, except for Sections 4.3, 4.4, 4.8, 4.9, 4.12, 4.13, 4.14, 4.15 of the General Terms and Conditions. If Licensor is unable to do any of the foregoing, Licensor shall, upon Licensee's request, make a pro rata refund of the Reading Fee for the value of the lost Continuing Access Content. The value will be determined by taking into account the fees paid by Licensee corresponding to such lost Continuing Access Content (including fees paid in previous agreement terms).

Licensor undertakes to continue providing the Content to Portico for the duration of the Term.

If Licensor's publishing rights to title(s) in the Content are transferred to an Affiliate, Licensor guarantees to provide Licensee with Continuing Access to the Content from the Start Date to the date of transfer for no extra charge online on the Platform in accordance with Section 1.2.

- 2.3 If Licensee orders the print versions of its Content from Licensor (whether directly or through an intermediary) in addition to its e-only-subscription under this License Agreement, Licensee is entitled to a discount of 75% off the list price of the print version, excluding postage and handling fee ("Deep Discounted Print" or "DDP"). Licensee's (or Licensee's intermediary's) order must state that Licensee is ordering the print versions of the Content under the DDP to obtain such discount.

- 2.4 Licensors shall maintain the Standardized Usage Statistics Harvesting Initiative (SUSHI) protocol (www.niso.org/workrooms/sushi) for the Content covered by this Product Terms on the Platforms.

Schedule 3: APC Rates

	2026	2027	2028 (optional)
APC Fund	€ 2,267,300	€ 2,346,344	€ 2,428,211
APC Rate	€ 2,405	€ 2,489	€ 2,576

In case of a termination by an individual Licensee for the Product with respect to Licensor, this License Agreement shall remain in effect with respect to all other Licensees. Licensor may exercise any termination right under this Section 7 against any individual Licensee(s) for the relevant Product, provided that in the case of termination by Licensor with respect to an individual Licensee, this License Agreement shall remain in effect with respect to all other Licensees.
- 7.2 Either Licensor or the Licensee may terminate the License Agreement immediately upon notice to the other party if the other party (Licensor, an individual Licensee or multiple Licensees) materially breaches this License

Agreement and fails to cure such breach within thirty (30) days after notice from the non-breaching party specifying the breach in reasonable detail. Licensor shall deduct such part of Licensee's License Fees representing the unexpired portion of the Term from the total annual License Fees under this License Agreement effective with termination. Such deduction shall however not affect any claim Licensor may have against Licensee regarding the breach of License Agreement. For avoidance of doubt, the Licensor's termination right under this clause applies to the Product regarding which there has been a material breach.

- 7.3 Either Licensor or Licensee may terminate the License Agreement immediately upon notice to the other party (Licensor, an individual Licensee or multiple Licensees) if (a) a petition in bankruptcy or for a reorganization or arrangement pursuant to the bankruptcy laws is filed by the other party, or (b) a petition in bankruptcy or for reorganization or arrangement pursuant to the bankruptcy laws is filed against the other party and such petition is not dismissed within 90 days, or (c) an order is entered directing the liquidation of the other party, or (d) the other party becomes insolvent, or (e) the other party assigns all or substantially all its assets for the benefit of creditors, or (f) the other party shall apply for, or consent to, the appointment of a receiver, trustee or liquidator for all, or a substantial part, of its assets, or (g) the other party ceases paying its debts on a regular basis, unless prohibited by applicable law. Licensor shall deduct such part of Licensee's License Fees representing the unexpired portion of the Term from the total annual License Fees under this License Agreement effective with termination.

- 7.4 In the event the Licensee through the National Library of Finland fails to pay the correctly invoiced License Fee for Content provided under one or more Product Terms, and fails to cure such non-payment within 30 calendar days following notice from Licensor, Licensor may, in its sole discretion, either (a) immediately and without further notice suspend access to the Content licensed under such Product Terms or (b) terminate the License Agreement pursuant to Section 7.2 with respect to the Content licensed under such Product Terms.

Such Licensee's License Fees will be deducted from the total annual License Fees under this License Agreement effective as of beginning of the following calendar year of the Term according to the cost division model as specified in the Product Terms Springer Transformative Agreement.

- 7.6 Licensee(s) may terminate this License Agreement due to material financial hardship by giving Licensor written notice of termination (including the reasons for opting-out) three months prior to the end of any calendar year of the Term, effective as of the end of the current calendar year of the Term. Such Licensee's License Fees will be deducted from the total annual License Fees under this License Agreement effective as of beginning of

the following calendar year of the Term according to the cost division model as specified in the Product Terms. In the event a Licensee does not terminate as set forth above, all payment obligations of such Licensee will remain in effect. For the avoidance of doubt, any such opt-out shall not affect any rights and obligations of the parties prior to the opt-out.

- 7.7 Additionally Licensee shall be entitled to terminate this License Agreement with a 3 months written notice the end of any calendar year of the Term effective as of the end of the current calendar year of the Term, if

7.7.1 a change of research or teaching or degree granting direction of Licensee is decided by the Ministry of Culture and Education which renders the Content to be less useful for Licensee.

Such Licensee's License Fees will be deducted from the total annual License Fees under this License Agreement effective as of beginning of the following calendar year of the Term according to the cost division model as specified in the Product Terms. In the event a Licensee does not terminate as set forth above, all payment obligations of such Licensee will remain in effect.

- 7.8 If any opt out or termination as described in Sections 7.5 and/or 7.6 and/or 7.7 would result in the sum of the annual License Fees of the Product Terms of the remaining Licensees within any year of the Term being less than 75% of the annual License Fees of all Licensees during the first full calendar year of the Term, Licenser and Licensee shall re-negotiate the License Fees for the remaining Licensees. In case Licenser and remaining Licensee(s) do not agree to such proposed adjustment of the License Fees, Licenser shall have the right to terminate this License Agreement with regard to all Licensees, effective beginning the year of the Term in which the opt-out(s) take(s) effect. If Licenser does not terminate this License Agreement pursuant to this Section 7.8, the License Agreement continues with the

remaining Licensee(s) under the agreed terms and conditions.

- 7.9 In case of a termination of Product Terms of one or more Licensees based on a termination as set forth in Section 7 of the General Terms and Conditions, the National Library of Finland may request Licenser to enter into discussions with the goal to mutually agree to revised terms of this License Agreement. If Licenser and the National Library of Finland do not mutually agree to changes to the License Agreement within six weeks from the request of the National Library of Finland, the National Library of Finland may terminate this License Agreement with a notice period of two weeks, however any Eligible Articles editorially accepted until the effective date of termination will be processed according to this License Agreement, particularly Licensee will, if applicable, confirm status of Affiliated Authors and related APCs will be deducted from the APC Fund.

- 7.11 For clarity, Section 7.10 does not apply (a) upon expiration of the Term of a Product with Continuing Access specified in the applicable Product Terms and (b) in the event of early termination by Licensee prior to expiration of Term of any or all Products with Continuing Access and (c) early termination by Licenser according to 7.5; however with regard to (b) and (c) it is clarified that Continuing Access is limited to such titles and issue being part of

the Content licensed until the actual date of termination and in case of (c) if Licensee's merger results in an increased number of Authorized Users, Licensee is not allowed to permit access for the gained number of Authorized Users without Licensor's prior written consent. All indemnification and payment obligations in the License Agreement up to the termination date shall survive such termination or expiration.

- 7.12. For avoidance of doubt the termination as contemplated in clauses 7.2 and 7.3. and all its consequences will only affect the individual Licensee(s) in question.
